

0131 VDE open-endedded spanner, insulated, MATADOR art. no. 01310060

0131 VDE open-endeded spanner, insulated, MATADOR art. no. 01310060

Beschreibung:

Insulated open-ended spanner for live working.

Up to 1000V, piece-tested according to EN 60900/IEC 60900 and VDE certified. With 2-layer safety dip insulation consisting of red insulation layer and yellow contrast layer for quick identification of damage.

For tightening and loosening nuts and screws, optimum fitting accuracy and longer service life of screw and spanner thanks to extremely precisely machined jaws. With 15° jaw position for comfortable working. Made of high-quality chrome vanadium steel (31CrV3).
