

8150 Cube L: socket set 17 pcs. 6-22 mm 10 mm (3/8") MATADOR 81503075

Beschreibung:

8150 Cube L: socket set 17 pcs. 6-22 mm 10 mm (3/8") MATADOR 81503075

The **MATADOR Cube L Modul** with the 17-piece socket set contains the most important sizes for hexagon head screws.

Due to the proven SmartDrive profile, also on the drive side, screws are protected and greater torque values can be achieved. The applied cross knurling also enables work with oily hands. The hexagonal inserts are designed exclusively for manual operation. The careful and precise machining of these tools, made of chrome vanadium, guarantees a perfect fit. An extremely durable nickel-chrome coating, inside and out, provides added grip and corrosion protection.

The intelligently milled soft foam insert allows for easy tool removal. Fits MATADOR RATIO and VARIO workshop trolleys and Men's Kitchen, but also almost all commercially available workshop trolleys and box systems. Contains the most important socket sizes (6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22 mm).
