0445 **T-handle offset screwdriver, 10 mm, MATADOR Item No.: 04450100**

0445 **T-handle offset screwdriver, 10 mm, MATADOR Item No.: 04450100**

Beschreibung:

T-handle angle screwdriver for hexagon socket screws - particularly flexible and effective in different spaces. Should not be missing in any tool set. Long side with ball head at the end for fast screwing, short side for powerful screwdriving. Also ideal for screws that are difficult to access, as ball head can be swivelled up to 25°. With particularly ergonomic 2-component handle with hard quick rotation and soft force zone made of TPE plastic. Fits perfectly in the hand due to a particularly ergonomic handle shape. This makes screws fun. With fully hardened blade, fully galvanic treatment of the surface (nickel-plated and chrome-plated) for long-lasting corrosion protection. Special chromium vanadium alloy for transmitting high torque values.
