3061 10 mm (3/8") Reversible Ratchet Z90, MATADOR 30610090, The new Z90

3061 **10 mm (3/8") Reversible Ratchet Z90, MATADOR 30610090, The new Z90**

Beschreibung:

It takes a bit more to make a really good ratchet.

More teeth. More power. More grip. More freedom. More design. **The new Z90**.

New and modern quality lever-action ratchet with innovative 90-tooth technology (2x4 double pawls made of high-performance special steel for maximum power development). With extra small swivel angle of only 4° (25% smaller swivel angle than commercially available fine-toothed ratchets) - perfect for working in hard-to-reach places and in narrow installation spaces. Extremely stable square shank made of chrome vanadium steel, enables high loads in any situation. With recessed, flat reversing lever for quick changes of direction. With push-button lock for safe working. This makes unintentional loosening of the sockets & extensions impossible. With modern designed, ergonomic multi-component handle for optimal handling. Light grey, soft and particularly slip-resistant zone for good grip feeling and comfortable finger support. Medium grey, nubby zone for a flat, non-slip grip and best power transmission. Black, hard zone for maximum stability and fast grip without "sticking". With practical hanging hole at the end of the handle to secure the ratchet or for storage on the tool wall.

Total length: 200 mm.
