8130 Electrician's tool set "Automotive" 47 pcs, MATADOR 81309551

Beschreibung:

Working under voltage.

Safety first.

The 46 or 47-piece “Automotive” electrician‘s tool kit is a compiled tool set with insulated tools for live work on electrical systems in hybrid and electric vehicles. The high-quality insulated tools are safely stored in a robust and practical hard-shell case, protecting them from damage. The tool kit contains the most important insulated tools for servicing and repairing modern hybrid and electric vehicles. All tools that are constantly needed, such as insulated ratchets and socket wrench inserts, as well as VDE pliers and VDE screwdrivers, are of course included. Insulated open-end wrenches and an insulated, adjustable combination wrench, as well as VDE T-handle offset screwdrivers are also included. The set is available with or without an insulated torque spanner in 12.5 mm (1/2“) 20–100 NM.
