8163 RATIO Workshop trolley, 7S empty, MATADOR 81630020

8163 **RATIO Workshop trolley, 7S empty, MATADOR 81630020**

Beschreibung:

Workshop trolley RATIO.

One for all. Large, robust and resilient.

The **MATADOR workshop trolley RATIO with 7 drawers** (5 x 75 mm, 2 x 150 mm height) is our successful model and is used in many workshops of well-known automobile manufacturers.

The **high-quality powder coating** in matt black (RAL 9005) is not only **extremely scratch-resistant**, it also looks very noble and, together with the **aluminium drawer edges**, radiates solid competence. The stable and ergonomic handle can be mounted on both sides, with a **working height of 1,030 mm**, the RATIO is particularly comfortable and is also suitable as a **mobile workbench** thanks to the stable ABS worktop with various small parts compartments, holders for cans and roll-away protection for small parts. The two side walls have a **modern square perforation for accessories** (hooks, waste containers, etc.) and are rounded extra wide at the corners (additionally rubber-coated in the lower area) to ensure **maximum impact protection**.

But the inner values are also convincing: Large, **ball-bearing heavy-duty fixed castors with solid rubber tires** ensure **a high load capacity (500 kg total),** thanks to the two swivel castors with parking brake and the two fixed castors, the RATIO is very manoeuvrable and mobile even under full load. The drawers have the proven **3-stage locking system with central locking, tilt protection and individual lock**. A **real full extension (100%) of the ball-bearing high-performance rails** makes tool removal easy, individually the drawers are even **up to 40 kg loadable** and can really hold a lot of tools. Using a pictogram sheet supplied, the drawers can even be individually marked, so that you always have an overview. If you want even more individuality, we can also supply the RATIO **with an individual name tag** (at no extra charge).

With an external dimension of **715 x 470 x 1030** mm (W x D x H) and an **internal drawer dimension of 565 x 395 mm** (W x D), the RATIO is an **ideal size for a wide range of applications**.
