Innovations and hot deals.

2022 EN. 

Premium hand tools and more since 1900.

Be a MATADOR.

MATADOR is one of the **pioneers in the tool industry.**

Since 1900 we have been producing **quality hand tools** „around the screw“ in Remscheid, the German capital of the tool industry. Our core competences are spanners, sockets, torque and pneumatic tools as well as modules for workshops. **For all kinds of screws from 3.2 to 230 mm.** 4,500 catalogue articles. Tried and tested a million times. Export in >70 countries. For ambitious users in industry, trade and the automotive industry. MATADOR is an **accredited supplier of all major OEMs** like Audi, Bosch, Ford, MAN, Mercedes-Benz, Volkswagen, Volvo, etc.

MATADOR is **the opposite of mainstream.**

We stand for upmarket premium tools. Reliable, design-focused, efficient. Intelligent tightening tools made for decision makers, fighters and **everyday heroes.** For real MATADORS.

For people who know and express what they want. People **who are inside the arena**, not in the stands. Who know **the difference between tools and toys.** Who do not seek excuses and are true to themselves. Past and present. For down-to-earth, straightforward and assertive individuals with life experience and stories to tell. Who overcome adversity, manage a healthy work-life balance and **believe in themselves.**

Welcome to the arena.

Be a MATADOR.

It takes something more to make a really good ratchet.

More teeth. More power. More grip. More applications. More design.

4°

Push-button lock for a safe connection between ratchet and socket.

25%

reduced angle (only 4°) compared to standard fine-toothed ratchets thanks to an **innovative 90-teeth technique**. Still ready for working even when it gets really tight.

50%

more torque than requested in the DIN standard (e.g. 12.5 mm (1/2") > 750 N·m). Still loosens screws when others have long given up.

Extremely robust square shank made of **Chrome Vanadium steel** for high resilience in every situation.

Recessed, **flat lever** for quick change of direction.

**Extremely fine toothed, extremely strong,
extremely ergonomic.**

Light grey, soft zone made of TPE plastic, especially anti-slip, for good grip and a comfortable support to the fingers.

Medium grey, nubby zone made of TPE plastic, large area for non-slip grip and transmission of high powers.

Black, hard zone made of special plastic for quick gripping without sticking.

Ergonomic and comfortable
thumb rest.

max.

ergonomics thanks to multi-component handle, better than standard 1- or 2-component handles. Optimally adapted, spherical shape.

Practical **hanging loop** to secure the ratchet during construction work or to hang on a tools panel.

Everything at a glance.

Tool sets systems.

Intelligent tool with numerous additional functions in a versatile transport box - that is the concept of MATADOR smartyBOX.

The 47-piece S0 Compact fits into any glove box or under the motorcycle seat with it's handy size.

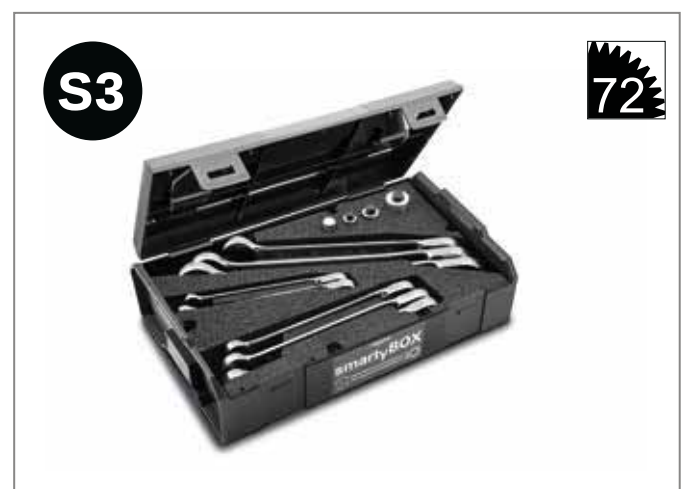

The 52-piece S0 is our budget-friendly solution for entering the world of smartyBOXes.

The 61-piece S1 leaves nothing to be desired to make just a little repair. Including bayonet stub and premium combination pliers.

The 26-piece S2 is the perfect compact box for all screw connections from 6 - 22 mm with adjustable ratchet spanner for counter-ringing.

The 12-piece S3 can be used as an extra narrow ratchet wrench thanks to the combination ratchet spanners with switch lever and supplied ratchet adaptors.

The 75-piece S4 is the complete set in 1/4" and 1/2" for all screw connections from 4 - 32 mm.

The 29-piece S5 is the complete set in 1/2" for all screw connections from 8 - 32 mm.

The 80-piece L1 is the 1/2" socket set with removable S1 smartyBOX in 1/4" for all screw connections from 4 - 32 mm.

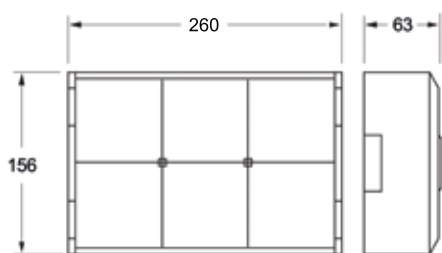

The 42-piece L2 is the all-round tool set with everything an ambitious craftsman needs.

The smartyBOX.
Really smart.

Compact in size:
B 145 x T 95 x H 50 mm.

Compact in size:
W 260 x D 156 x H 63 mm.

Stackable and can be clicked onto each other for easy transportation.

■ smartyBOX S0 c, 47 pcs

The **S0 Compact** with its **handy size** of just 145 x 95 mm fits in any drawer, even in your desk or under the motorcycle seat.

Including the new MATADOR ***790*** 1/4" reversible ratchet with **90 teeth** for the smallest gaps drives either 30 standard bits of high-alloy S2 material (25 mm), 6 extra-long screwdriver blades (75 mm) **with color guide system** for faster identification or **sockets** with **double smart drive profile**.

Everything is fit securely into **MFS soft foam inlays** and survives even the hardest fall.

The detailed specification can be found at www.matador.de.

MTS unlimited edition.

350 high quality tools. 8 modules. That's it.

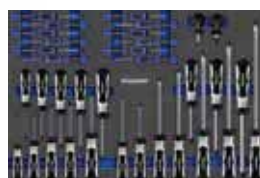

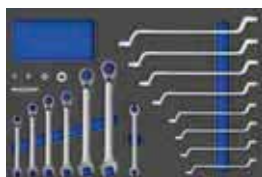

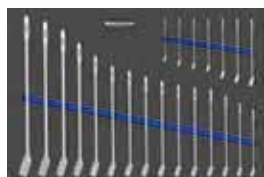

MTS

unlimited edition

Focusing on the essentials.

All inclusive.

MTS unlimited edition: 8 modules with 350 high quality tools.

Additional modules for automotive repair.

Which tools do you need?

It depends... Your tasks change.

Do you really want to spend your time looking for the right tools for your latest challenge? Do your new tools fit into the tool modules and tool storage system you already use? Probably not.

When you check the market you will find almost uncountable offers of fully equipped tool trolleys - but **what do you really need?**

Save your time and keep an overview because we have a better idea:

We set up a **comprehensive database** including all equipped tool trolleys that we have ever supplied to **BMW, Ford, Jaguar, Land Rover, Mercedes-Benz, Volkswagen** and other customers, and we broke them down to the single tool.

Additionally, we included important **OEM specifications - like Volkswagen VAS 275 001** - and took the tool trolley range of other tool manufacturers into consideration. The unsurprising result:

Around **88%** of the tools listed can be found in any specification because these tools are needed in every workshop.

We added another **10%** of tools that make sense and give you enough scope

for future tasks. So you do not need to look for further additions again.

What came out is our **"MTS unlimited edition" with 350 tools that cover 98% of all application fields.** It's a safe bet.

For the remaining 2% we saved you lots of time.

Make something out of it!

For automotive repairs we added two modules with a comprehensive 10 (3/8) socket set and another module for car body work.

You won't need more tools. For details please refer to:

■ RATCHET SPANNERS

The original with patented GearWrench®-gear.

Quality gear made of special steel, reaches or surpasses the torque values of standard ring and ring ratchet spanners.

Ratcheting angle of only 5° due to 72 teeth, quick results even in confined spaces.

■ Combination Ratchet Spanners, straight

Straight type, without switch lever, end position 15° angled, MATADOR SUPER CHROM, CrV-Steel.

MATADOR Sockets 6 Stars-Comfort

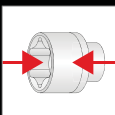

Chrome Vanadium Steel for high tenacity, exceeds temper values demanded according to DIN.

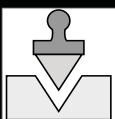

SUPER CHROM coating for perfect rust protection, cannot flake off.

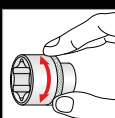

Double Smart Drive profile both on hexagon and square side is gentle on the screw. And what's even more important: On the ratchet.

Double coating inside and outside, does not transfer surface rust.

Stamped mark (not only lasered) for permanent identification and manufacturer's notification.

Knurled zone for manual high-speed turning even with oily fingers.

Engineer's Hammer

Forged hammer head, Sideways smoothed and epoxy powdered. Handle fixed with round steel wedge and resin. With safety collar (tapered).

ART. CODE 500
0705 0500 g

Quality Cable Knife with wooden handle

The classic cable knife for each tool assortment. The blade folds away, with straight, hardened blade and round cable scraper. Moulded handle made out of wood. Material: Stainless steel.

ART. CODE 200
0825 0001 mm

Steel Wire Brush with 5 rows

Bent type, with wooden handle, wire filled in 5 rows.

ART. CODE 280
0782 0001 mm

Grip Pliers

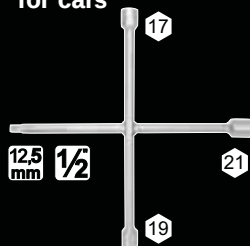

For securely holding, clamping and tensioning round, profile and/or flat material

ART. CODE 250
0588 0250 mm 10"

■ Automotive Tools

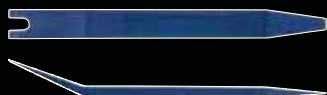

■ Four Way Rim Wrenches for cars

Welded version made out of chrome vanadium steel, with SK profile, works also on rounded nuts.

ART. CODE
0350 1001

■ Multi Wedge

For removing panels, cover clips, carpets, etc.

Very resistant material.

ART. CODE
0843 0004 210 mm

■ Wheel Bolt Cap Pliers

Special long flat nose pliers with notch, e.g. installing protective caps for aluminium wheel bolts, installation and removing blade fuses, comparable with VW 3314 / T20011.

ART. CODE
0585 0014

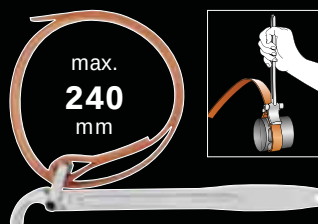

■ Panel Removal Kit 5 pcs

Professional trim and panel removal kit.

ART. CODE
0843 9050

■ Strap Wrenches Pro

Heavy-duty construction for high torque values, for oil filters and other round shaped bodies.

ART. CODE
0426 0001

■ Oil Filter Socket

Fits all standard oil filter cartridges.

ART. CODE
0429 0001

■ Tyre Levers

500 mm
H-profile for high stability. For tire installation and removal, for steel and aluminium rims, also suitable for general purposes.

ART. CODE
0754 0003

■ Release Tool

For generic works on chassis, e.g. removing door panels, fixed door windows with window guide etc. Comparable with VW T10236.

ART. CODE
0842 0001

■ Spark Plug Brush

For cleaning of electrodes and contacts on spark plugs.

ART. CODE
0781 0001

■ Spark Plug Wrench VW

Spark plug wrench, SW 16 mm, Comparable with VAS 3122B.

ART. CODE
0367 0016

Torque wrenches UNO.

One window. One value. One grip. One click.

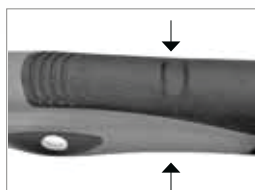

Make complicated things simple.

Easy setting at the end of the handle.

Only one window with clear numeric value in N·m.

Error-free handling thanks to double-sided finger grooves.

Integrated lever ratchet with small head to reach tiny areas.

Well protected in solid plastic case.

Extremely precise and easy to use.

The new professional torque wrench by MATADOR with **an absolutely innovative operating concept**:

Easy setting with extra fine graduation (from 0.5 N·m to 1.0 N·m on larger models), **only one window with clear numeric value in N·m**. No division scale which is difficult to read.

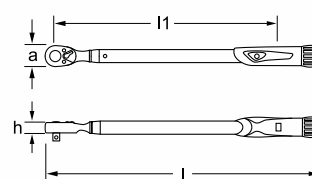

With small ratchet head to reach tiny spaces, with lever and 48 teeth, safety lock and quick-release function. Permanent protection of the body thanks to full powder coating.

The handy and ergonomically optimal design of the handle with its integrated finger grooves make the correct use a breeze. Clearly audible and perceptible signal when the desired torque value is reached.

The MATADOR UNO is extremely precise: **maximum deviation only ±3%** from the set scale value. For controlled clockwise operation. With German calibration certificate according to DIN EN ISO 6789.

From 5 - 1,000 N·m. For industry and automotive.

Stay mobile with the MATADOR premium trolley ALLROUND including 185-pc tool set.

Extremely robust, double-walled tool case with telescopic handle and smooth-running wheels. Comprehensive tool set „Best of MATADOR“.

Snap-lock telescopic handle.

Large, smooth-running wheels.

3K softGRIP

Innovative pliers set with 3C handles and many additional functions.

Including smartyBOX, our practical universal socket box.

Bottom can be divided by variable inserts.

Handy helpers.

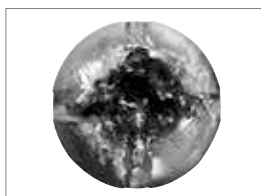

The problem solvers from MATADOR.

■ Screw Extractor

Loosens nearly all damaged, unhardened and even rusty screws without thread repair tools. Since low-quality screws are becoming more prevalent, damaged and frayed screw heads are no longer an exception. Even the best screwdriver will be useless. The screw cannot be loosened. **The solution:** In most cases the screw can be loosened without employing laborious threading tools: Simply drive the tip of the **MATADOR Screw IT!** into the screw head by using a hammer, then unscrew the screw - done!

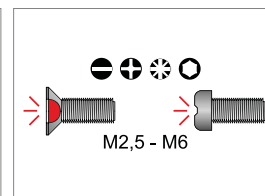

ART. CODE
0770 0002

Perfect for damaged or rusted screw heads.

With impact cap for aimed release of hammer force.

For all threads from M2.5 - M6.

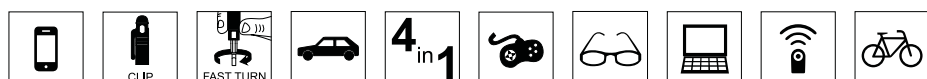

4 penny

■ Mini-Screwdriver 4in1

Always at hand in urgent cases.

Exceptionally practical pen screwdriver with 2 removable caps, each with a removable bit. 4 screwdrivers in one tool. Provides window for quick identification of the inserted bit. A perfect combination of precise technology and standard screwdriver. Suitable for glasses, mobile phones, remote controls, computers, toys, bicycles, cars and all kinds of repair in general.

There are many tool cases in the market.

But only very few with high quality tools
in a compact, full and uncompromising set.

BlackBox.

Shakeproof arrangement of the tools in soft foam inlays.

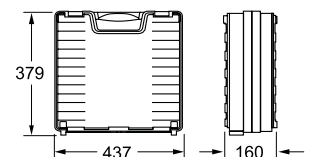

High functionality and easy-to-open intermediate plate.

High quality case „Made in Germany“ in a compact design.

Solid polypropylene construction with wide and rubberized handle.

**The most important 125 high quality hand tools
for work, home and hobby in one case.**
Compact. Complete. Uncompromising.

4in1 ring ratchet spanners - the original.

High-quality ratchets, e.g. 12.5 (1/2) with torque exceeding 750 Nm.

Sockets in 5 star industrial quality with SUPER CHROM surface.

Innovative pliers set with 3KsoftGRIP handles and many special features.

High-quality screwdrivers set with ergonomic 2C handles.

Including smarty-BOX, our practical universal socket box.

For more information please use the QR-code.

Everything included. Only high quality hand tools.

The MATADOR „BlackBox“ is a real surprise box. It contains everything a demanding and ambitious (hobby) mechanic needs for **large and small repairs and maintenance**. Thought-out compilation of tools, uncompromising quality and **many multifunctional tools**, e.g.:

- **4-pc pliers set with 3KsoftGRIP handles** incl. allround side cutter for cutting, stripping, crimping and bending work
- **4in1 pocket screwdriver** with pocket clip and the 4 most important screwdriver bits for slotted and cross-slotted (PH) screws incl. fine mechanics bits for glasses, mobile phone, keyboard, radio, etc.

- **4in1 ring ratchet spanner**, suitable for 70% of all screwing work
- **6.3(1/4) smarty-BOX** including the new **reversible ratchet 790** with **90 teeth** for the smallest gaps
- **2 hex key sets** for hexagon socket and TORX screws with softGRIP holder for quick key removal

Shake-proof tool storage thanks to soft foam inlay that keeps all tools in place during transport. In well-designed and stable plastic case.
