

Innovations and hot deals.

2023 EN.

Premium hand tools and more since 1900.

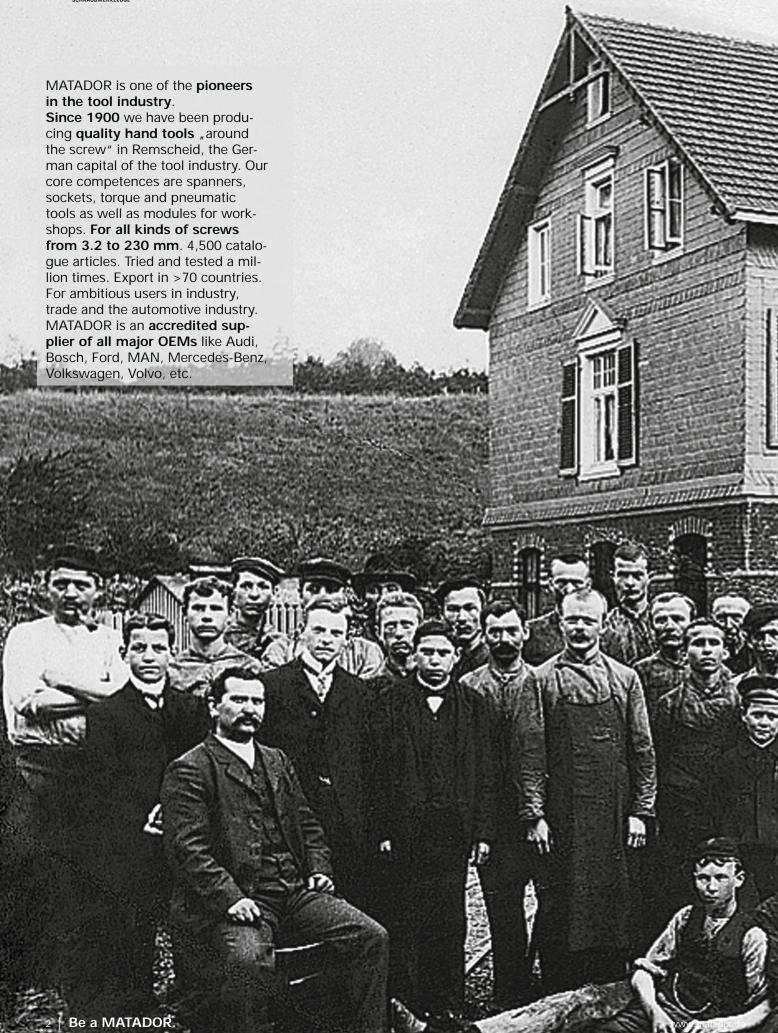

We stand for upmarket premium tools. Reliable, design-focused, efficient. Intelligent tightening tools made for decision makers, fighters and everyday heroes.

For real MATADORs.

For people who know and express what they want. People who are inside the arena, not in the stands. Who know the difference between tools and toys. Who do not seek excuses and are true to themselves. Past and present. For down-to-earth, straightforward and assertive individuals with life experience and stories to tell. Who overcome adversity, manage a healthy work-life balance and believe in themselves.

Welcome to the arena.

Be a MATADOR.

It takes something more to make a really good ratchet.

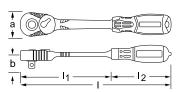

More teeth. More power. More grip. More applications. More design.

Recommended retail prices excl. VAT

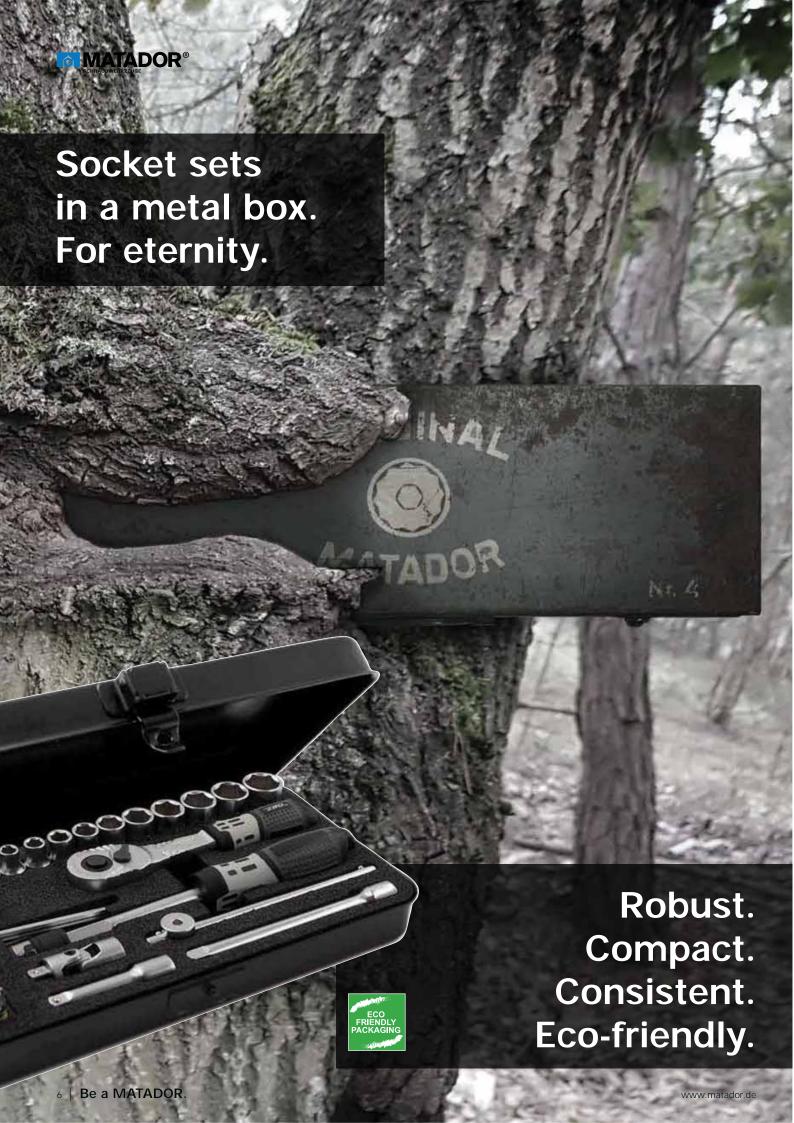

Extremely fine toothed, extremely strong, extremely ergonomic.

Ultra-compact box, stackable and clickable, can be integrated into the L-BOXX system. 156 (L) x 260 (W) x 63 (H) mm.

Robust and resilient, insensitive to dirt to dirt, with integrated carrying handle, can be integrated into the L-BOXX system. 316 (L) x 367 (W) x 70 (H) mm.

Robust case made of impact and shock resistant ABS plastic, stackable and clickable, can be integrated into the L-BOXX system. 358 (L) x 445 (W) x 118 / 152 (H) mm.

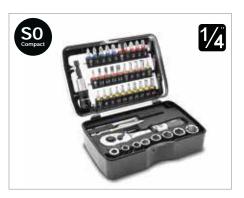

Everything at a glance.

Tool sets systems.

The 47-piece S0 Compact fits with its handy size in every glove compartment or under the motorbike seat. Ideal as a small helper on the road.

The 52-piece S0 is our budget-friendly solution for entering the world of smarty-BOXes.

The 61-piece S1 leaves nothing to be desired when it comes to carrying out a small repair. Including bayonet handle and premium combination pliers.

The 26-piece S2 is the perfect compact box for all screw connections from 6 - 22 mm with adustable ratchet spanner for countering. Complements the S1 perfectly.

The 12-piece S3 can be used as an extra-flat ratchet for sockets thanks to the combination ratchet spanners with change-over lever and ratchet adapters supplied.

The 29-piece S4 is the perfect set in 1/2" for all screw connections from 8 - 32 mm incl. spark plug inserts.

The 75-piece S5 is the complete set in 1/4" and 1/2" for all screw connections from 4 - 32 mm. Including bayonet plug-in handle and all important bits.

The 80-piece L1 contains all important sockets in 1/4" and 1/2" incl. removable S1 smartyBOX - for all screw connections from 4 - 32 mm.

The 42-piece L2 perfectly complements the L1 and contains everything an ambitious craftsman needs - pliers, hammer, spanners and screwdrivers and more.

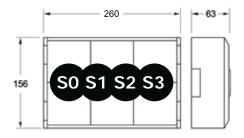

Mini size: 95 (L) x 145 (B) x 50 (H) mm.

Compact in size: 156 (L) x 260 (B) x 63 (H) mm.

smartyBOX S0 c, 47 pcs

The SO Compact with its handy size of just 145 x 95 mm fits in any drawer, even in your desk or under the motorcycle seat.

Including the new MATADOR **Z90_** 1/4" reversible ratchet with 90 teeth for the smallest gaps drives either 30 standard bits of high-alloy S2 material (25 mm), 6 extra-long screwdriver blades (75 mm) with color guide system for faster identification or sockets with double smart drive profile.

Everything is fit securely into MFS soft foam inlays and survives even the hardest fall.

Low budget universal box including the new MATADOR **ZSD_** 1/4" reversible ratchet.

Comes with everything needed for screw tasks from 4 - 14 mm. With innovative spinner handle that can be used as a multiscrewdriver and extends a total length of 370 mm.

The smartyBOX S4 and S5.

The next generation's socket sets.

The MATADOR i-Boxx 72 protects the socket set from splash water and ensures maximum order. It can be integrated into the MATADOR system. The sturdy stacking box has a load capacity of up to 5 kg and gives a perfect overview thanks to the transparent closure lid and inscribable handle.

smartyBOX S4, 29 pcs

MATADOR Sockets -

Chrome Vanadium Steel for high tenacity, exceeds temper values demanded according to DIN.

SUPER CHROM coating for perfect rust protection, cannot flake off.

Double Smart Drive profile both on hexagon and square side is gentle on the screw. And what's even more important: On the ratchet.

Double coating inside and outside, does not transfer surface rust.

Stamped mark (not only lasered) for permanent identification and manufacturer's notification.

Knurled zone for manual high-speed turning even with oily fingers.

The 29-piece S4 is the classic socket set in 1/2" for all screw connections from 8 - 32 mm. The ideal combination of ratchet, accessories and sockets. This standard equipment is supplemented by three sockets for spark plugs. All tools are housed in a soft foam insert to prevent shaking. Perfect for mobile use or simply in the workshop.

The S5 with **75 pcs is the complete set** in 1/4 "and 1/2" for all screw connections from 4 - 32 mm. It is the ideal combination of ratchets, accessories and sockets. This full range of features is supplemented by the multi-functional plug-in handle with bayonet mount for bits and sockets.

Focusing on the essentials.

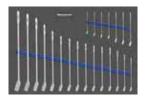

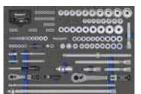

Werkstattwagen RATIO "unlimited edition":

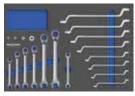

Covers 98% of all vehicle repairs.

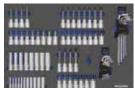

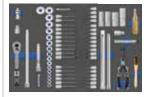

Additional modules for automotive repair.

MTS unlimited edition: 8 modules with 350 high quality tools.

Which tools do you need?

It depends... Your tasks change.

Do you really want to spend your time looking for the right tools for your latest challenge? Do your new tools fit into the tool modules and tool storage system you already use? Probably not.

When you check the market you will find almost uncountable offers of fully equipped tool trolleys - but what do you really need?

Save your time and keep an overview because we have a better idea:

We set up a comprehensive database including all equipped tool trolleys that we have ever supplied to BMW, Ford, Jaguar, Land Rover, Mercedes-Benz, Volkswagen and other customers, and we broke them down to the single tool.

Additionally, we included important OEM specifications - like Volkswagen VAS 275 001 - and took the tool trolley range of other tool manufacturers into consideration. The unsurprising result:

Around 88% of the tools listed can be found in any specification because these tools are needed in every workshop.

We added another 10% of tools that make sense and give you enough scope

for future tasks. So you do not need to look for further additions again.

What came out is our "MTS unlimited edition" with 350 tools that cover 98% of all application fields. It's a safe bet.

For the remaining 2% we saved you lots of time.

Make something out of it!

For automotive repairs we added two modules with a comprehensive 10 (3/8) socket set and another module for car body work.

You won't need more tools. For details please refer to:

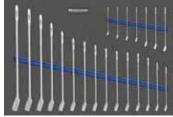

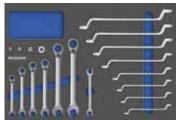

Tool trolley RATIO "unlimited edition" with 350 high quality tools. The king among tool sets for automotive.

Everything for thread repair.

Drill. Cut. Sink.

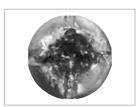

Screw Extractor

Loosens nearly all damaged, unhardened and even rusty screws without thread repair tools. Since low-quality screws are becoming more prevalent, damaged and frayed screw heads are no longer an exception. Even the best screwdriver will be useless. The screw cannot be loosened. The solution: In most cases the screw can be loosened without employing laborious threading tools: Simply drive the tip of the the MATADOR ScrewIT! into the screw head by using a hammer, then unscrew the screw - done!

ART. CODE **0770 0002**

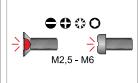

14.²⁸€

Perfect for damaged or rusted screw heads.

With impact cap for aimed release of hammer force.

For all threads from M2.5 - M6.

Screw Extractor Set, 6 pcs

For unscrewing broken screws with a right-hand thread and for removing torn pipe ends from fittings.

Hold threading tools

Tool Holder with Ratchet, size 1, M3-M10

with ratchet and 2-jaw chuck. For all tools with square or hexagon shank (size 1). With Thandle for comfortable work and hardened, exchangeable parallel jaws. For taps and screw extractors M3 - M10 with a clamping range of 4.6 - 8.0 mm.

Universal tool holder

Torque wrenches UNO.

One window. One value. One grip. One click.

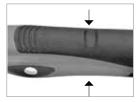

Make complicated things simple.

Easy setting at the end of the

Only one window with clear numeric value in N·m.

Error-free handling thanks to double-sided finger grooves.

Integrated lever ratchet with small head to reach tiny areas.

Well protected in solid plastic

Extremely precise and easy to use.

The new professional torque wrench by MATADOR with an absolutety innovative operating concept:

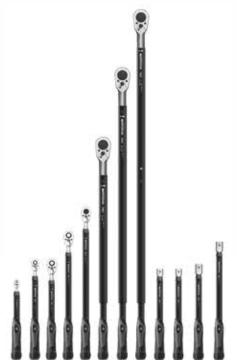

Easy setting with extra fine graduation (from 0.5 N·m to 1.0 N·m on larger models), only one window with clear numeric value in N·m. No division scale which is difficult to read.

With small ratchet head to reach tiny spaces, with lever and 48 teeth, safety lock and quick-release function. Permanent protection of the body thanks to full powder coating.

The handy and ergonomically optimal design of the handle with its integrated finger grooves make the correct use a breeze. Clearly audible and perceptible signal when the desired torque value is reached.

The MATADOR UNO is extremely precise: maximum deviation only ±3% from the set scale value. For controlled clockwise operation. With German calibration certificate according to DIN EN ISO 6789.

From 1 - 1,000 N·m.

For industry and automotive.

The classic for every workshop: Parallel bench vices completely forged from high-quality steel with inductively hardened, polished and knurled jaws. Big, hardened anvil. Rolled, twin start trapezoid thread for precise and quick operation. Integrated pipe-gripping jaws. Spindle bearing protected against dirt and damage. Jaw opening capacity higher than jaw width for more comfortable operation. Delivery including rotary base.

With integrated pipe-gripping jaws.

Adjustable spindle guides for backlash-free operation.

Rotary base easy to fix and remove.

Steel arm easy to remove.

High voltage.

Tools for the electrical sector.

Universal soldering iron

Million times proven universal soldering iron with 40 W for increased heat requirements. Versatile for soldering tasks in the areas of craft / service and hobby. Equipped with a professional permanent soldering tip. ROHS compliant with an operating voltage of 230 volts and a heat-up time of 120 seconds. Maximum soldering tip temperature of 420 °C. Soldering tip diameter 3.10 mm.

Digital multimeter

The digital multimeter for simple measurements in the automotive sector.entry-level model with excellent features. Power supply by 9 V block battery. With test cable and detailed operating instructions. DC voltage up to 250 V (200 mV, 2 V, 20 V, 200 V, 250 V), AC voltage up to 250 V (200 V, 250 V) and DC current up to 10 A (2 mA, 20 mA, 200 mA, 10 A). Resistance up to 2 M Ω (200 Ω , 2 k Ω , 20 k Ω , 200 k Ω , 2 M Ω). Battery tester 1.5 V- / 9 V, diode test and continuity tester.

Electrician's scissors (VDE)

Effortlessly cuts cables, cable sheathing, cable binders, insulating tape or even wire. Made of INOX stainless steel with hardness 60 HRC.

There is a notch on the blade for cables and wires.

ART. CODE 0744 1001 140 mm 7.47 €

Cable knife (VDE)

VDE cable knife with straight, hardened stainless steel blade. Including protective cap against injuries.

10.000 V piece tested with insulated surface according to IEC 60900:2004.

ART. CODE 0826 0001 180 mm 14.28 €

Tool case VDE AUTOMOTIVE.

The mobile workshop for electric and hybrid vehicles.

Tool kit for hybrid- and electric vehicle repair with 50 high quality tools, e.g.:

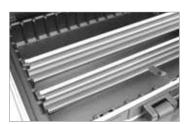

- Single ended spanners 8 - 24 mm
- Adjustable Wrenches
- 3-pc. set of pliers VDE with telephone pliers, combination pliers and side cutter
- 6-pc. set of screwdrivers VDE
- 12,5(1/2) Socket Set VDE with sockets 8-22 mm
- Hex Keys with T-Handle VDE
- In practical ABS hardshell case with extra storage space
- Optional with torque wrench VDE 20-100 N·m
